#### **DOMAIN 1: HEALTH**

1. Elimination of Malnutrition through Action-Research on Moderately and Acute Malnourished Children

To support nutritious and supplementary food to increase the immune system of malnourished children to the local areas

2. Mobile Healthcare Unit:

Mobile Healthcare Unit programme provides basic healthcare services at the doorstep of communities residing in remote, underserved and unreached areas. The main aim of MHU is to provide services under different thematic areas such as Maternal Health, Neonatal and Infant Health, Child and Adolescent health, Reproductive Health and Contraceptive Services, Prevention and control of Communicable and Non-Non-Communicable diseases in joins hands with Government's Health Department.

3. Healthcare Infrastructure and Awareness Creation

To strengthen the rural primary Health Centres and Government Hospitals, the Company has planned to support infrastructural upgradation. Our CSR initiative in healthcare is largely for rural residents and communities located in remote areas. It would be implemented in both the manners i.e. directly and with the help of implementing agencies.

4. Medicines for Health Activities

The Company has planning to provide medicine and materials to the different stakeholders in the society considering many prevalent disease and Covid 19 pandemic to underprivileged people. This

will protect the people from disease spread and also from treatment of other communicable and Non Communicable diseases. The proposed project would be implemented directly and with the help of implementing agencies.

## **DOMAIN 2: EDUCATION**

### 1. Anganwadi Infrastructural Development

Anganwadi program provides early education and nutrition to 0-6 year olds, lactating mothers and pregnant women. This program is run through anganwadi centres. It is critical that the environs of the anganwadi are child friendly, safe and hygienic. With this intent, the Company proposed to takes up upgradation of infrastructural facilities near its plant locations. The works such as Construction and Renovation of Buildings, Toilets, Midday meal cooking room, LPG Connection, Play Materials, Providing safe drinking water and educational aids etc., Anganwadi Infrastructure Development project would be implemented by the Company and Implementing Agencies.

### 2. School Infrastructure Development Project

To improve the educational standards in identified schools, the Company has planned this project to ensure basic educational facilities such as Infrastructure Up-gradation, digital classroom, Provision of potable drinking water for the students, distribution of stationary items, book donation, Celebration of school-based activities etc. It will be implemented directly and indirectly both the ways.

### 3. Promotion of Scientific Medical & Pharma Research Outcomes for Public Health Improvement

In order to improve health standards in the Health sector by sharing of latest Pharma and scientific research, company has continuing this work.

### 4. Setting up of Digital Classroom Project

To boost rural education system, fully equipped digital classroom has been proposed with smart touch pad board, projector, speaker, computer and software. Digital learning has been found to be a great aid in livening up the text books on screen. The retention and attention of the students in the class has improved significantly. The teachers now have a powerful tool to explain difficult topics in the curriculum in a more intuitive way. It will be implemented directly and indirectly.

## **DOMAIN 3: RURAL DEVELOPMENT**

### 1. Installation of Solar Street Lights

To develop the community standards in the villages the infrastructure projects has to be develop. To make the village safer for its residents, the Company has proposed to install a fully automated solar street lights and would be implemented in both the manners i.e. directly and with the help of implementing agencies.

### 2. Rural Infrastructure Development Projects

Considering village self-reliant, the Company is proposing to support basic and necessary things in the villages. Under rural asset creation, the Company shall take up Rural Development projects aimed at improving and setting up of basic amenities for the villages and the fund will be spent directly and indirectly.

#### **DOMAIN 4: ENVIRONMENT**

##### 1. Tree Plantation

Under Environment conservation, the Company has planned to setup Tree Plantation drives towards environmental sustainability and awareness generation in schools and communities for sensitizing people towards importance and conservation of environment. It will be implemented directly and indirectly both the manners.

#### **DOMAIN 5: WATER**

##### 1. Drinking Water

Water and sanitation are fundamental to good public health. To take this as priority company has proposed to supply Safe Drinking Water to Schools, Anganwadis and in Villages. The project would be implemented in both the manners i.e. directly and with the help of implementing agencies.

#### **DOMAIN 6: DISASTER RESPONSE & COVID – 19 RELIEF**

1. Provision of Covid – 19 Relief Material & Awareness COVID 19 was declared as pandemic by the World Health Organisation (WHO). To prevent and support relief activities, company has proposed to support Covid Relief activities to join hands with State and Central Government through Voluntary Organizations in providing relief activities such as, Distribution of masks, Isopropyl Alcohol, Hand sanitizers, Supporting ration kits, Food packets, Distribution of Medicine, Setting up free of Oxygen supply plant to Covid patients etc. The support would be extended in both the manners i.e. directly and with the help of implementing agencies.
